ABSTRACT

WEB-BASED E-LEARNING IN ENGLISH SUBJECT OF VOCATIONAL SCHOOL DESCRIPTIVE QUALITATIVE STUDIES

By Della Aprilia 16050035

The development of technology has influenced all of the aspect of human life including educational aspect. In todays learning most of the school used elearning caused of Covid19 pandemic, after implementing the e-learning there was a change in teaching method and learning habit that faced by the student . Therefore, because of this situation both of the teacher and students are asked to using the online media in learning activity . This research aimed to find out the extent of the implementation of e-learning of English learning during coronavirus pandemic in vocational students .

The type of the research used descriptive qualitative method. The population was all students of XI kesehatan keperawatan of SMK Yasmida Ambarawa that consisted 33 students as the sample. In collecting the data , the researcher used interview and questionnaire. The data analysis technique that used in this research was used triangulation data.

Based on the result of this research , the implementation of e-learning or online learning was quite effective during this pandemic situation, this online learning also helps the students to continue to learning English during a pandemic .Although in its implementation there are many obstacles and shortcomings that are felt by students and teacher. While, in other side e-learning also have a good benefit.

Keywords :*E-Learning, Online Learning.*
